

SUPER-GRIP TAPE

Super-Grip Tape has been formulated to be attached to Sound-Stop 5 as some adhesives on other brand tapes will peel off. The tape is black in colour, rip resistant and must be cut with a sharp knife or sharp scissors. Surfaces must be clean and dry before adhering. When applying, pressure and friction will activate the adhesive properties to maintain a strong bond.

Technical Information for Super-Grip Tape

- **Roll Dimensions:** 178mm x 178mm x 48mm
- **Thickness:** .28mm
- **Colour:** Black
- **Sold by:** The Roll
